

ROMINA VILLAVERDE BACSKAY

SR. FULL STACK ENGINEER

PROFILE

I'm a Senior Full Stack engineer that has been in the software industry since 2008. I've worked with a diversity of technologies and in the last couple of years I've been focusing my career towards the frontend development as I'm also passionate about product and design. I'm proactive and deeply analytical, I'm always thinking outside the box to solve the current problem considering all possible edge cases and side effects. I also pay a lot of attention to the details and focus on best practices to have a clean, efficient and scalable code and delivery high-quality results. Currently working at MURAL and living as a digital nomad since 2020.
